|---|---|
| **Slow first load** | Every visit starts in a browser tab, so shoppers wait before they see a product. |
| **No place on the home screen** | Once the tab closes, the only way back is a search or another paid ad. |
| **No direct line** | Restocks and offers go to email, where most of them are never opened. |
| **Checkout from scratch** | Addresses and card details are typed again on a small screen. |

# What we would build for Gulaal.

### A native app, iOS and Android

Your full Shopify catalogue, checkout and accounts, in both stores under Gulaal's name.

### Installs from your own site

An install prompt on your storefront invites mobile visitors to add the app and rewards them when they do.

### Push that sells

Restock alerts, drops, abandoned carts and order updates, straight to the lock screen.

### A portal your team runs

Change banners, collections and offers yourselves. No release, no ticket.

Built, launched and maintained by Bonsify. No developers to hire on your side.

# The apps Gulaal runs, kept in your app.

Found on gulaal.pk. We connect each one before launch.

- Wishlist King
- ReConvert
- Google Analytics 4

Reviews, loyalty, subscriptions, search, messaging and support carry over, so shoppers see the same points, prices and reviews in the app as on the site. Bonsify apps connect to 230+ Shopify apps; we check each one in your audit and tell you what works on day one.
