Bonsify × OPTUS SOLUTIONS

An app for Optus Store.

A native iOS and Android app for optusstore.pk, built from your live catalogue. Every product, price and image on that phone is yours.

Optus Store today.

What we found on optusstore.pk before writing this.

109

products in your catalogue

10

collections, from Adapter to Amazfit

Shopify

store, selling in PKR

- Live chat and WhatsApp support one tap away
- Prices in each shopper's currency
- Cash on delivery kept as a checkout option

Where mobile web loses people.

130%

more orders from shoppers in an app than on mobile web.

Venn Apps, 2025

Slow first load	Every visit starts in a browser tab, so shoppers wait before they see a product.
No place on the home screen	Once the tab closes, the only way back is a search or another paid ad.
No direct line	Restocks and offers go to email, where most of them are never opened.
Checkout from scratch	Addresses and card details are typed again on a small screen.

What we would build for Optus Store.

A native app, iOS and Android

Your full Shopify catalogue, checkout and accounts, in both stores under Optus Store's name.

Installs from your own site

An install prompt on your storefront invites mobile visitors to add the app and rewards them when they do.

Push that sells

Restock alerts, drops, abandoned carts and order updates, straight to the lock screen.

A portal your team runs

Change banners, collections and offers yourselves. No release, no ticket.

Built, launched and maintained by Bonsify. No developers to hire on your side.

Your app, ready to try.

1. **Scan the code**
   Point your phone camera at the code. The Optus Store app opens full screen, no download.
2. **Browse your store**
   Your collections, products, prices and photos from optusstore.pk are already in.
3. **Add to cart and check out**
   Open a product, pick options, add it to the cart and walk through checkout.

Try it on your phone
