- Prices in each shopper's currency

Where mobile web loses people.

130%

more orders from shoppers in an app than on mobile web.

Venn Apps, 2025

Slow first load	Every visit starts in a browser tab, so shoppers wait before they see a product.
No place on the home screen	Once the tab closes, the only way back is a search or another paid ad.
No direct line	Restocks and offers go to email, where most of them are never opened.
Checkout from scratch	Addresses and card details are typed again on a small screen.

What we would build for Rashid Textiles.

A native app, iOS and Android

Your full Shopify catalogue, checkout and accounts, in both stores under Rashid Textiles's name.

Installs from your own site

An install prompt on your storefront invites mobile visitors to add the app and rewards them when they do.

Push that sells

Restock alerts, drops, abandoned carts and order updates, straight to the lock screen.

A portal your team runs

Change banners, collections and offers yourselves. No release, no ticket.

Built, launched and maintained by Bonsify. No developers to hire on your side.

Your app, ready to try.

1. **Scan the code**
   Point your phone camera at the code. The Rashid Textiles app opens full screen, no download.
2. **Browse your store**
   Your collections, products, prices and photos from rashidtex.com are already in.
3. **Add to cart and check out**
   Open a product, pick options, add it to the cart and walk through checkout.

Bonsify × RASHID

How it works.

From the first call to the App Store.

01

Audit

We go through rashidtex.com on a phone and mark where shoppers drop off.

02

Build

We design and build the app around your catalogue, in your branding throughout.

03

Launch

We handle App Store and Google Play submission and switch on the install prompt on your storefront.

04

Grow

We keep the app updated, watch the numbers and improve it every month.
